The house is made entirely by natural materials – stone, wood and metal. The style is a mix of medieval castle and a Swiss Alps hut. There is a cosy fireplace made of stones and handmade ornaments by wrought iron. In front of that incredible fireplace, you can see an amazing armchair. In order to make the guests feel the cozyness, we used colourfull accents and clay cutlery. The dining chairs' colours are bright, in tone with the unique bulgarian traditional clothes. Every single decoration is chosen in order to emphasize on the natural beauty and country style.
